How to Complete the Entry Form.

The Entry Form consists of predetermined form fields (gray boxes) that have specific character length limits, including spaces. This is driven by information that will be used for the display table cards as provided by you, the RWS member. Starting with your name, click on the gray box and type your first name. Then hit the tab key or just click on the next gray box to continue.

The display table cards will be created for every piece that you enter in the Showcase, and these cards will have a finished size of 3 ½" x 4 ½". Due to the finished size of the table cards, the description field in the entry form must be a short 250 character description of the piece. If you want a longer description of the piece, you may include a printed flyer with the entry. Please keep in mind that any items that are displayed on a table versus the floor have a limited amount of "real estate" per object.
